

LAVINGTON STREET

Relocation

PROJECT BRIEF

- Re-locate 150 users to new building
- Incorporate as much of the existing furniture as possible in the new layouts/location
- Reduce redundant furniture waste
- Eliminate redundant furniture landfill
- Plan layouts to incorporate 70 new staff
- Create dynamic flexible workspaces
- Delivery Ska compliant project – Green Building credentials

KEY OUTCOMES

- ✓ £60,000 saved in new furniture spend
- ✓ Choice of how and where to work
- ✓ High user satisfaction ratings
- ✓ 6610kg tonnes furniture landfill saved
- ✓ Low scope 3 emissions for installation
- ✓ Any unusable furniture items recycled for materials recovery – zero to landfill
- ✓ All furniture items supplied recyclable by JPA at end of life. All packaging recycled or recyclable

by **JPA**

'Newly refurbished Lavington Street is deemed by all as a huge success in terms of functionality, décor and furniture. I had the privilege of working closely with JPA on this project, led by Matt Janes. I cannot emphasise enough how vital a part they played in the smooth and punctual delivery of this project. A highly effective collaboration between existing and new furniture, has resulted in a streamlined, modern ambience. A really terrific job!'
